Grant Edit Codes

Introduction

This section provides a table to help you interpret the various edit codes that are used and their related comments. The information is grouped according to the following column headings:

- Edit Code – the number that is assigned if the edit condition(s) is met. This column also lists one of the three edit types. They are:
 - W Warning and/or Corrected
 - E Rejected
- Message – the explanation that displays for the prescribed edit condition.
- Condition and Action – a description of the situation that caused the edit and the action taken either to resolve it and/or to notify the school of the potential error.
- What It Means – further explanation of the message in an effort to make the cause of the edit clearer.
- How to Fix It – what the user must do to resolve the mistaken condition.
- COD Web site Edit Code – the edit code that the user will see on the COD Web site; Web site edit codes are translated to the Pell Phase-In edit code on the SAIG Acknowledgment files.

The following comparison operators are used in performing these edits:

Equals	=
Less than	<
Greater than	>
Less than or equal to	<=
Greater than or equal to	>=
Not equal to	<>
A parameter value that can be changed between cycles, this is the data that comes from the ALGORITHM and AWARD YEAR tables and can be made year-specific.	@

Pell Grant Multiple Reporting Record (MRR)

The Pell Grant Multiple Reporting Record (MRR) provides information to a school about a student's origination and disbursement status at other schools and the amount of the scheduled Pell Grant award disbursed. The MRR identifies two primary types of multiple reporting conditions: concurrent enrollment and potential overaward situations. This report will include data regarding Iraq and Afghanistan Service Grants until the June 2018 COD update becomes operational.

Business Rules

1. An MRR can be COD system generated or may be requested by the school via batch data request, or COD Web site.
2. The MRR is provided in fixed-length, flat file format via a school's SAIG mailbox (message class PGMR21OP)
3. The MRR is available on the COD Reporting Web site in Comma-Delimited (CSV).
4. The Comma-Delimited (CSV) format displayed on the COD Reporting Web site will contain the same data elements and valid values in the Fixed Length record layout below with addition of commas as a separator.
5. The requested MRR on the COD Reporting Web site is named as "Pell Multiple Reporting Record – Requested".
6. The system generated MRR on the COD Reporting Web site is named as "Pell Multiple Reporting Record – System Generated".

Format Options

Previous versions of this report will also be available on the COD Reporting Web site. Please refer to the July 25, 2017 COD System Electronic Announcement for more information on previous version availability.

Pell Grant Pending Disbursement List

The Pending Disbursement List report provides a listing of all Pell anticipated disbursements (DRI = false) with a disbursement date 8 to 30 days in the future. Beginning in June 2018, this report will no longer include data regarding Iraq and Afghanistan Service Grant students.

Business Rules

1. The Pending Disbursement List is automatically sent to the school's SAIG mailbox on a weekly basis in the following formats:
 - a. Comma-Delimited (CSV) (message class PGPE21OP)
2. The Pending Disbursement List is available via the COD Web site in the following format:
 - a. Comma-Delimited (CSV)
 - b. The Pending Disbursement List available on the COD Web site is the report most recently generated by COD.
3. The report will be sent to schools weekly until the last day of December for the specific award year. Example: Award year 2020-2021 ends 9/30/2021; the final date that COD would generate the Pending Disbursement List for 2020-2021 would be 12/31/2021.
4. Although the Pending Disbursement List is a weekly report, the report will not be generated for a given school unless the school has one or more disbursements meeting the following criteria:
 - a. Anticipated Pell disbursements (DRI = false) with a disbursement date up to 6 days before the report generation date, or
5. If the weekly report generation criteria are met, a Pending Disbursement List report will be generated containing all Pell anticipated disbursements (DRI = false) for the reported Award Year.
6. An annual Pending Disbursement List report will be sent to schools between July 26 and August 1 of each trailing Award Year (e.g. between July 26 and August 1, 2021 for the 2020-2021 Award Year), regardless of whether the weekly report generation criteria are met or not. This report will contain all anticipated Pell disbursements (DRI = false) for that Award Year.

3. Schools can also submit a data request for the Pell POP Report either through Batch or the COD Web site.
 - a. Pell POP Reports generated as a result of a data request are sent to the school's SAIG mailbox in Comma-Delimited (CSV) format (message class PGPR21OP).
 - b. The Reporting School Entity ID is required on the data request while the Attended School Entity ID is optional.
 - i. If no Attended School Entity ID is submitted (zero filled), then the report will consist of the Reporting School and all the associated Attended School(s) student records.
 - ii. If an Attended School Entity ID is submitted, then the report will consist of the Reporting School and only that Attended School student records.
 - c. The report generated as of result of a data request will contain data as of the previous night's processing.
4. The Pell POP Report is grouped by Attended School ID
 - a. Within each Attended School ID group, the Pell POP Report groups students who:
 - i. Are currently in a POP situation for this award year
 - ii. Have been in a POP situation during this award year, but are no longer in a POP situation. Students no longer in a POP situation include:
 1. Students for whom a school has submitted a negative disbursement to resolve the situation
 2. Students for whom COD has reduced all disbursements to \$0 because the POP situation has gone unresolved for more than 30-Days
 - b. Within each grouping, students are sorted by Last Name, First Name, Middle Initial, SSN, and DOB.
5. The Pell POP Report will be sent to schools monthly until the last day of December for that specific award year. Example: Award year 2020-2021 ends 9/30/2021; the final date that COD would generate the Verification Status Report for 2020-2021 would be 12/31/2021.
6. Although the Pell POP Report is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD Reporting Web site.

The Pell POP Report is only sent to a school for that week if it currently has at least one student in POP.

Format Options

Previous versions of this report will also be available on the COD Reporting Web site. Please refer to the July 25, 2017 COD System Electronic Announcement for more information on previous version availability.

7. The requested Pell POP Report in the COD Reporting Web site is named as “Pell POP - Requested”.
8. The system generated Pell POP Report that includes school data for Attending Schools in the COD Reporting Web site is named as “Pell POP - Attending”.
9. The system generated Pell POP Report that includes school data for the Reporting School and all associated Attending Schools in the COD Reporting Web site is named as “Pell POP – All Campuses”.

Pell Grant School Account Statement (SAS)

Beginning March 2017, the COD System will begin producing the Pell Grant School Account Statement (SAS) for award years 2017-2018 and forward. The Pell Grant SAS is a monthly statement, similar to a bank statement, which summarizes the school's processing activity for that month and/or Year-to-Date (YTD). This statement can be used as a reconciliation tool to compare to both your financial aid and business office records. This report will not include any data regarding Iraq and Afghanistan Service Grant students.

Sections of the SAS

- **Cash Summary** - This section of the SAS provides the Department's official Ending Cash Balance for the school for the reported period. The Cash Summary contains both a monthly and a year-to-date summary of cash and loan data processed at COD for that program year. This information is automatically included in the SAS. This section can be compared to summary information on the school's internal systems. The comparison may then identify areas where further research is needed. The Pell Grant Cash Summary section will include the Beginning Cash Balance and the Department of Education's official Cash > NAPD as of the end date of the file. The Monthly Pell Grant Cash Summary section will include a monthly summary of cash and disbursement data processed on the COD System. The YTD Pell Grant Cash Summary section will include a year-to-date summary of cash and disbursement data processed on the COD System during the Award Year. If a school with NAPD activity for the year has a month without new NAPD, detailed activity, or cash activity, they will still receive a Pell Grant SAS Report for that month. The Cash Summary section will include the process date, which is the processing date the report was generated.
- **Cash Detail** - This section of the SAS provides details on cash transactions processed by the COD System. Transaction types included in this section are: drawdowns, drawdown adjustments, disbursement offsets, refunds of cash, returns, and/or reversals. Schools will be defaulted to receive the Monthly Pell Grant Cash Detail, but can update their preferences on COD Web to receive the YTD Pell Grant Cash Detail, or both, depending on the Report Activity Type selected by the school. The monthly Cash Detail section will include cash transactions processed on the COD System during the month, and the YTD Cash Detail section will include cash transactions processed from the start of the award year through the End Date of the file. If a school opts to receive both the Monthly and YTD Report Activity Types on COD Web, they will receive the monthly and YTD Pell Grant Cash Detail sections in different files. Schools will not have the ability to opt out of the Cash Detail Section for Pell Grant SAS Report.
- **Disbursement Level Detail** - This section of the SAS provides transaction level details for all disbursement and adjustment transactions funded and applied or processed on the COD System, including both financial and non-financial transactions for funded and applied disbursements. Schools will have the option of receiving the Monthly Disbursement Level Detail section, the YTD Disbursement Level Detail section, or both.
- **Award Level Disbursement Summary** - This section of the SAS provides year-to-date award level details for all awards with a funded and applied disbursement through the end date of the file. It is only available to schools who have opted to receive the Report Activity Type of YTD or Both and the Award Level Disbursement Summary section on the SAS Options page of COD Web.

Business Rules

1. The Pell Grant SAS will only be available in Comma-Delimited with Headers format.
2. The COD System generates the Pell Grant SAS on a monthly basis and automatically sends it to a school's SAIG mailbox.
3. The Pell Grant SAS is generated on the first full weekend of the month and includes all data through the last day of the previous month. If the first day of the month falls on a Sunday, the SAS will run the following weekend. For example, the October SAS report, containing all data through October 31, will be run on the first full weekend of November.
4. Starting with the 2017-2018 Award Year, the Pell Grant SAS will be generated each month for all schools that have at least one disbursement funded and applied or cash activity for that award year, and it will contain both a summary and detailed information.
5. Schools will continue to receive a Pell Grant SAS every month until the processing deadline has passed. Once a school has confirmed closed out for the award year the Pell SAS will stop generating unless the school reopens or they process disbursement and/or cash transactions which will cause an automatic reopen.

6. A school will receive a Pell Grant SAS after the processing deadline if the school has Net Accepted and Posted Disbursement (NAPD) activity or cash activity during the reported month.
7. Pell Grant SAS reports will also be generated for schools on extended processing every month including the month the extended processing expires.
8. All monetary fields in all sections of the Pell Grant SAS will include dollar amounts with pennies.
9. Pell Grant SAS will include non-financial disbursement adjustments in disbursement level detail sections of the SAS Disbursement Detail on Demand and regularly scheduled SAS. For a non-financial transaction to be included in the disbursement detail section of a regularly scheduled SAS, it must have been submitted and accepted by the COD system after an earlier financial transaction was funded and before the end of the month.
10. The Disbursement Level Detail section will be sorted in the following order:
 - a. Attending School Pell ID ascending
 - b. Within the same Attending School Pell ID, SSN ascending
 - c. Within the same SSN, Disbursement Number ascending
 - d. Within the same Disbursement Number, order adjustments processed ascending
11. The Award Level Disbursement Summary section will be sorted in the following order:
 - a. Attending School Pell ID ascending
 - b. Within the same Attending School Pell ID, SSN ascending
12. Authorized users may modify their Pell Grant SAS Options via the SAS Options page on the COD Web
 - a. Users update the Report Activity Type field. Options included:
 - i. Monthly (Default)
 - ii. Year to Date
 - iii. Both (Monthly and YTD)
 - b. Based on the option a school selects under the Report Activity Type drop down box these are the disbursement sections a school can select to receive:
 - i. If a school chooses a report activity type of Monthly, the school will receive the Disbursement Level Detail and Cash Detail monthly section.
 - ii. If a school chooses a report activity type of Year-to-Date, the school will have the option to receive the Disbursement Level Detail and/or the Award Level Disbursement Summary Year-to-date sections. If the school chooses both the Disbursement Level Detail **and** Award Level Disbursement Summary they will receive each under a separate message class (report). Either options will include the YTD Cash Detail.
 - iii. If a school chooses a report activity type of Both (Monthly and Year-to-Date), the school can choose to receive the Disbursement Level Detail, and have the option to select the Disbursement Level Detail Year-to-Date and/or the Award Level Disbursement Summary Year-to-date. Based on the choices a school makes, they may receive up to three separate message classes (reports).
 - c. Schools may set or change their SAS options at any time. Changes will be applied to the next scheduled run of the Pell Grant SAS file.
 - d. Schools new to the Pell Grant program or schools that have not changed their options on the COD Web site are set to the default values which are a report activity type of monthly and receive the Disbursement Level Detail report.
 - e. A school's SAS options for the current award year will be carried over to the next award year with New Award Year Setup. If a school wants different options for different award years, it must update its options separately for each award year. Schools should ensure they are in the correct program year in the Pell Grant SAS Report Options screen before updating their options.
 - f. Users cannot opt out of receiving both Disbursement Detail and Award Level information.
 - g. The table below demonstrates which reports a user will receive based off their Pell Grant SAS Options:

TEACH Grant Multiple Reporting Record (MRR)

The Multiple Reporting Record (MRR) provides information to a school about a student's origination and disbursement status at other schools and the amount of TEACH Grant award(s) disbursed. The TEACH Grant MRR only identifies one primary type of multiple reporting conditions: concurrent enrollment.

Business Rules

1. An MRR can be COD system generated or requested via the COD Web site.
2. The MRR is provided in fixed-length, flat file format via a school's SAIG mailbox (message class THMR21OP)
3. The MRR is available on the COD Reporting Web site in Comma-Delimited (CSV).
4. The Comma-Delimited (CSV) format displayed on the COD Reporting Web site will contain the same data elements and valid values in the Fixed Length record layout below with addition of commas as a separator.
5. The requested MRR on the COD Reporting Web site is named as "TEACH Multiple Reporting Record – Requested".
6. The system generated MRR on the COD Reporting Web site is named as "TEACH Multiple Reporting Record – System Generated".

TEACH Grant School Account Statement (SAS)

The TEACH School Account Statement (SAS) is a monthly statement, similar to a bank statement, which summarizes a school's TEACH processing activity for each month. The TEACH SAS is a school's primary tool used in reconciliation, and should be compared to both financial aid and business office records. This file provides the Department's official ending cash balance as of the end date of the file, based on data submitted by a school. As such, all schools with cash or disbursement activity within the award year will receive the TEACH SAS on a monthly basis.

Sections of the TEACH SAS

- **Cash Summary** - This section of the TEACH SAS provides the Department's official Ending Cash Balance for a school for the reported period. The Cash Summary contains both a monthly and a year-to-date summary of cash and award data processed at COD for that program year. This section can be compared to summary information on a school's internal systems. The comparison may then identify areas where further research is needed.
- **Cash Detail** - This section of the TEACH SAS provides detail on cash transactions processed at COD during the reported period. This includes drawdowns, drawdown adjustments, pushed funds, refunds of cash, returns, and/or reversals. If the monthly option is chosen, this section will only include cash transactions processed at COD during that month. If the year-to-date option is chosen, the section will include cash transactions processed at COD from the start of the program year through the end date of the file.
- **TEACH Award Detail, Disbursement Activity Level** - This section of the TEACH SAS provides transaction-level detail for all disbursement and adjustment transactions processed on COD during the reported period. If the monthly option is chosen, this section will include disbursements booked on COD during the reported month as well as year-to-date unbooked disbursements. If the year-to-date option is chosen, the section will include all disbursements, booked and unbooked, on COD as of the end date of the report. This information can be used to do a transaction-level comparison to the school's internal records, for either that month, or year-to-date. Note that for TEACH, unbooked disbursements are typically future dated disbursements. In most cases, unbooked disbursements appearing on the TEACH SAS are rare.

Business Rules

1. The COD system generates the TEACH SAS and automatically sends it to a school's SAIG mailbox.
2. The TEACH SAS is generated monthly and includes all data through the last day of the previous month.
3. The TEACH SAS displays pennies for all dollar amount fields.
4. Schools have the option to select the TEACH SAS Report Activity Type on the COD Web site.
 - a. The choices for the Report Activity Type option are:
 - i. Monthly (Default)
 - ii. Year-to-Date
 - iii. Both Monthly and Year-to-Date
 - b. Schools may set or change their Report Activity Type option at any time. Changes will be applied to the next scheduled run of the TEACH SAS file.
 - c. Schools new to the TEACH program or schools that have not changed their options on the COD Web site are set to the default values.
 - d. A school's SAS options for the current award year will be carried over to the next award year with New Award Year Setup. If a school would like different TEACH SAS options for each award year, the TEACH SAS options need to be updated separately for each award year. Schools should ensure they are in the correct program year in the TEACH SAS Report Options screen before updating their options.

5. The TEACH SAS file is delivered to a school's SAIG mailbox in Comma-Delimited format using the following message classes:
 - a. Monthly file (message class THSM21OP)
 - b. Year-to-Date file (message class THSY21OP)

Message Class	Batch ID	Data Description	Record Length	Destination Mailbox

Business Rules

1. The ATS Discharge Report is sorted in the following order (with each field listed in ascending order):
 - a. Discharge Date
 - b. Last Name
 - c. First Name
 - d. Middle Initial
 - e. SSN, and then
 - f. DOB
2. The ATS Discharge Report is available via SAIG in the following format:
 - a. Fixed-Length (default)
3. The ATS Discharge Report (all format types) is sent from the COD System with non-award year specific message class ATSDISOP.
4. The ATS Discharge Report is transmitted to the Reporting School's SAIG mailbox and COD Reporting Web site on a weekly basis.
5. The ATS Discharge Report is transmitted to the following Attended Schools on a weekly basis:
 - a. All Attended Schools with loans linked to the ATSs in the report.
 - b. All Attended Schools that created the ATSs listed in the report regardless of whether or not an award was linked to the ATS.
6. Although the ATS Discharge Report is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD Reporting Web site.

Direct Loan Reports

Direct Loan Reports Options

Direct Loan Reports are available to schools in a variety of format options. Direct Loan reports are available via the school's SAIG mailbox, COD's new Report Requests page, and/or on the COD Reporting Web site. Beginning in March 2013, Direct Loan SAS Disbursement Detail on Demand Reports may be requested via the new COD Report Requests page on the COD Website.

Business Rules

1. Direct Loan Reports for 2020-2021 are sent to schools as a flat file and not an XML document.
2. Direct Loan Reports for 2020-2021 and prior years are sent to school's SAIG mailbox in the following format options. Not all reports are offered in all formats:
 - a. Comma-Delimited (CSV)
 - b. Fixed-length File
 - c. Do Not Distribute - This is only available for specific reports (see the individual report Business Rules for more information). If this option is chosen, the report will not be generated and sent to a school's SAIG mailbox, although prior versions will still be available for viewing on the COD Web site. Schools can select the Do Not Distribute option from the COD Web site Report Selection screen at any time. Keep in mind that, if a school chooses not to receive a report, COD will not be able to send any missed reports at a later time. If a school updates its options to begin receiving a report, the school will only receive reports generated from that point forward.
3. Many Direct Loan Reports for 2020-2021 and prior years are viewable on the COD Web site in the following format options:
 - a. Comma-Delimited (CSV)
4. Delivery method and format options vary by report type. These specific options are discussed under the appropriate report section.

Beginning in March 2013, Direct Loan School Account Statement Disbursement Detail on Demand Reports will be available on-demand via the new COD Report Requests page on the COD Website. Schools will continue to receive their Direct Loans School Account Statement each month automatically which contains the Department's official record of your Ending Cash Balance.

Direct Loan School Account Statement (SAS)

The School Account Statement (SAS) is a monthly statement, similar to a bank statement, which summarizes the school's processing activity for each month. The SAS is the school's primary tool used in reconciliation and program year closeout, and should be compared to both financial aid and business office records. This report provides the Department's official ending cash balance as of the end date of the report, based on data submitted by the school. As such, all schools are required to receive the SAS on a monthly basis until they have officially closed out a program year.

Sections of the SAS

- **Cash Summary** - This section of the SAS provides the Department's official Ending Cash Balance for the school for the reported period. The Cash Summary contains both a monthly and a year-to-date summary of cash and loan data processed at COD for that program year. This information is automatically included in the SAS. This section can be compared to summary information on the school's internal systems. The comparison may then identify areas where further research is needed. For example, if the school determines their internal systems match the SAS Cash Summary information for Net Drawdowns/Payments but not for Total Net Booked or Total Net Unbooked, the school can target further research to loan detail only.
- **Disbursement Summary by Loan Type** - This section of the SAS provides monthly and year-to-date summary information by loan type for the reported period. It can be used to monitor loan volumes at the summary level (both booked and unbooked) for all loan types processed at COD.
- **Cash Detail** - This section of the SAS provides detail on cash transactions processed at COD during the reported period. This includes drawdowns, drawdown adjustments, or refunds of cash. If the monthly option is chosen, this section will only include cash transactions processed at COD during that month. This section will not include any cash transactions requested or sent during the month, but not processed on COD until after the last day of that month. If the Year-to-date option is chosen, the section will include cash transactions processed at COD from the start of the program year through the end date of the report.
- **Loan Detail, Loan Level** - This section of the SAS provides loan-level detail for disbursement transactions processed on COD through the end date of the report. Each transaction lists the total amount disbursed on that loan as of the end date of the report. This information can be used to perform an award-level comparison to your internal systems. This section is only available as year-to-date.
- **Loan Detail, Disbursement Activity Level** - This section of the SAS provides transaction-level detail for all disbursement and adjustment transactions processed on COD during the reported period. This section may have multiple transactions per award ID (as applicable). This section is available as monthly, year-to-date, or both. The monthly version will only show disbursements booked on COD during the reported month, but will include all unbooked disbursements (unbooked transactions are always year-to-date). Unbooked disbursements include any future dated transactions with disbursement dates falling after the end of the report. The year-to-date version of the report will show all disbursements, booked and unbooked, on COD as of the end date of the report. This information can be used to do a transaction-level comparison to the school's internal records, for either that month, or year-to-date.

Business Rules

1. The COD System generates the School Account Statement (SAS) on a monthly basis and automatically sends it to the school's SAIG mailbox.
2. Once a school has officially completed the closeout process for a specific program year, a school will no longer receive a SAS for that year. If the school's balances change after it has officially closed out, the school will resume receiving a Direct Loan SAS report to assist with the reconciliation process.
3. The SAS is generated on the first full weekend of the month and includes all data through the last day of the previous month. If the first day of the month falls on a Sunday, the SAS will run the following weekend. For example, the October SAS report, containing all data through October 31, will be run on the first full weekend of November.
4. Schools have the option to customize the SAS in a number of ways on the COD Web site.

- a. The following options can be set for the SAS on the SAS Options page on the COD Web site (Note: Each option is described in detail below):
 - i. Report Format
 - ii. Include Names of Borrowers
 - iii. Report Activity Type
 - iv. Sections of SAS to Receive
 - b. Schools may set or change their options at any time. Changes to SAS options will be applied to the next scheduled run of the report.
 - c. Schools new to the Direct Loan program or schools that have not changed their options on the COD Web site are set to the default values. Note: Default values are noted in parentheses below.
 - d. A school's SAS options for the current award year will be carried over to the next award year with New Award Year Setup. If a school wants different options for different award years, it must update its options separately for each award year. Schools should ensure they are in the correct program year in the Direct Loan SAS Report Options screen before updating their options.
 - e. Schools may receive more than one report for an award year depending on which options are selected.
5. The **Report Format** option allows the school to select the format of the SAS Report that is delivered to its SAIG mailbox.
- a. The choices for the Report Format option are:
 - i. Fixed-length flat file (**Default**) (message class DSDF21OP – Disbursement level and DSLF21OP – Loan level)
 - ii. Comma-Delimited with headers (message class DSDD21OP – Disbursement level and DSLD21OP – Loan Level)

NOTE: In order to use the Direct Loan Tools comparison function, schools **MUST** choose fixed-length flat file format.

6. The **Include Names of Borrowers** option allows the school to choose to have borrower names included in the detail portion of the SAS.
- a. The choices for the Include Names of Borrowers option are:
 - i. Yes
 - ii. No (**Default**)
 - b. If Yes is selected, PLUS loans will show both Borrower and Student names.
 - c. Borrower and Student First Name, Last Name, and Middle Initial are provided in the Loan Detail, Loan Level Section of the Fixed-length report.
 - d. Borrower and Student First Name and Last Name (not Middle Initial) are provided in the Loan Detail, Loan Level section, and the Loan Detail, Disbursement Activity Level section of the Comma-Delimited with headers reports.
 - e. Borrower and Student First Name, Last Name, and Middle Initial are **NOT** provided in the Loan Detail, Disbursement Activity Level section of the Fixed-length report.

7. The **Report Activity Type** option allows the school to select whether to receive the Monthly, Year-to-Date, or Both for both the Cash and Loan detail sections of the SAS. Regardless of its choice, the school will receive the Monthly Cash Summary and the Year-to-Date Cash Summary.
- a. The choices for the Report Activity Type option are:
 - i. Monthly (**Default**)
 - ii. Year-to-Date
 - iii. Both Monthly and Year-to-Date

 - i. If Monthly is selected,
 1. The school will receive the Monthly Cash Detail.
 2. The school will have the choice to receive or not receive the Monthly Disbursement Transaction Level Detail.
 3. The school will NOT have the choice to receive the Year-to-Date Loan Level section or the Year-to-Date Disbursement Transaction Detail section.
 - ii. If Year-to-Date is selected,
 1. The school will receive the Year-to-Date Cash Detail.
 2. The school will have the choice to receive or not receive the Year-to-Date Loan Level section and/or the Year-to-Date Disbursement Transaction Detail section.

8. The **Sections of the SAS to Receive** option allows the school to select which sections of the SAS it receives.
- a. The school may choose whether or not to receive the Summary by Loan Type section.

Direct Loan Pending Disbursement Listing Report

The Pending Disbursement Listing Report shows all pending/anticipated disbursements (with Disbursement Release Indicator (DRI) = false) from your school for the reported period and award year. The reported period is a 45-day window into the future from the date of the report, or anything in the past. It will be generated if there is at least one anticipated/pending disbursement that is within the window of 6 days in the past or the 45 days into the future. This limits the frequency of the report showing same data repeatedly once the disbursement dates are in the past. There is also one final report run for all schools before the closeout deadline for DL.

The information displayed on this report can be used to:

- Determine your school's future funding needs.
 - Your school can identify pending disbursements on the report that fall within a period of immediate need (generally 3 business days), to calculate what amount to request in G5 (Advance Funded schools only). Keep in mind that any downward disbursement adjustments made since the last drawdown that have not resulted in a refund of cash back to the Department must be included in your calculation of funds needed by your school.
- To identify pending disbursements that should be reflected as actual disbursements (DRI = true).
 - If there are pending disbursements on the report with disbursement dates in the past or the immediate future, you can compare this information to internal school records to determine if any of these should be reflected as actual disbursements. If so, submit a Disbursement Release Indicator = true to COD as soon as possible.
- To identify awards or disbursements that need to be inactivated (reduced to \$0).
 - If a disbursement is listed on the report and the associated award should have been inactivated or the individual disbursement needs to be reduced to \$0, submit updated records to COD as soon as possible.

Business Rules

1. The Pending Disbursement Listing Report is automatically sent to the school's SAIG mailbox on a weekly basis.
2. The Pending Disbursement Listing Report is available via SAIG mailbox in the following format, which can be selected via the COD Web site Report Selection screen under the "School" menu:
 - a. Comma-Delimited (message class DLPD21OP)
 - b. Do Not Distribute - if this option is chosen, the Pending Disbursement Listing will not be generated and sent to your school's SAIG mailbox, although prior versions will still be available for viewing on the COD Web site. You can select the Do Not Distribute option from the COD Web site Report Selection screen at any time. Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school at a later time. If you update your options to begin receiving a report, you will only receive reports generated from that point forward.
3. The Pending Disbursement Listing Report is available via COD Web site in the following format:
 - a. Comma-Delimited (CSV)
 - b. The Pending Disbursement List available on the COD Web site is the report most recently generated by COD.
4. The report will generate for the current and previous two Award Years.
Example: for Award Year 2020-2021, a school will receive a report for Award Years 2020-2021, 2019-2020, and 2018-2019.

Format Options

Previous versions of this report will also be available on the COD Reporting Web site. Please refer to the July 25, 2017 COD System Electronic Announcement for more information on previous version availability.

5. Although the Pending Disbursement List is a weekly report, the report will not be generated for a given school unless the school has one or more disbursements meeting the following criteria:
 - a. Anticipated Direct Loan disbursements (DRI = false) with a disbursement date up to 6 days before or 45 days after the report generation date
6. If the weekly report generation criteria are met, a Pending Disbursement List report will be generated containing all Direct Loan anticipated disbursements (DRI = false) for the reported Award Year with a disbursement date less than or equal to 45 days from today.
7. An annual Pending Disbursement List report will be sent to schools up to 6 days before or on the Latest Date to Accept a Common Record for the Award Year, regardless of whether the weekly report generation criteria are met or not. This report will contain all anticipated Direct Loan disbursements (DRI = false) for that Award Year with disbursement dates any date in the past.

Direct Loan Duplicate Student Borrower Report

The Duplicate Student Borrower Report lists the student borrowers for which the COD System has accepted multiple Direct Subsidized and/or Unsubsidized Award records with overlapping academic years. Overlapping academic years is defined as having two Direct Loan awards in two different attending schools that have academic begin and end dates that overlap for at least two days where both awards are in the four most recent Award Years and award amount is greater than zero. This report assists in identifying subsequent award or disbursement records that may reject due to exceeding the annual loan limits. This report does NOT relieve the school of its responsibility to monitor all loan activity for a student through the NSLDS processes.

This information can be used to:

- Identify potential overaward situations.
 - Use data on the report to identify when multiple sub/unsub awards have been originated with overlapping academic years, which could result in an overaward situation.
 - If any of the listed awards at your school will not be disbursed, or will only be partially disbursed, reduce the award by the applicable amount.
 - Monitor remaining awards for students listed on the report and any associated disbursements for any rejects due to overaward situations.

Business Rules

1. The Duplicate Student Borrower Report is automatically sent to the school's SAIG mailbox on a monthly basis.
2. The Duplicate Student Borrower Report is available via SAIG mailbox in the following format, which can be selected via the COD Web site Report Selection screen under the "School" menu:
 - a. Comma-Delimited (message class DUPLCDOP)
 - b. Do Not Distribute - if this option is chosen, the Duplicate Student Borrower Report will not be generated and sent to your school's SAIG mailbox, although prior versions will still be available for viewing on the COD Web site. You can select the Do Not Distribute option from the COD Web site Report Selection screen at any time. Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school at a later time.  - b. The Duplicate Student Borrower Report available on the COD Reporting Web site is the report most recently generated by COD.
4. Although the Duplicate Student Borrower Report is generated monthly, if there is no data for the report on a given month, the report will not be sent to the schools' SAIG mailbox or made available via the COD Web site.

Previous versions of this report will also be available on the COD Reporting Web site. Please refer to the July 25, 2017 COD System Electronic Announcement for more information on previous version availability.

Direct Loan Rebuild File

An electronic rebuild file can be requested to rebuild a school's lost or corrupted Direct Loan Database or to recreate specific student records. It may be imported into Direct Loan Tools to rebuild an EDExpress database or into a school's vendor or mainframe system. For more information on the rebuild functionality in DL Tools, refer to Volume IV, Section 1 of this Technical Reference.

Beginning in Summer 2015, the Direct Loan Rebuild file will be updated to reflect the new elements being returned in the Response block of PLUS awards with the schema version 4.0b. Notification will go out when the COD Technical Reference has been updated with these changes.

Date Range Option

The date range option selects awards accepted within the date range and provides all disbursement transactions, including disbursement adjustments, related to these loans.

Business Rules

- The Direct Loan Rebuild File is provided in a fixed-length file format (message class CODRBFOP).
- A Rebuild File can be requested by a school for a specific:
 - Award Year (e.g. 2020-2021) – provides all the loan/disbursement information for the entire award year
 - Borrower/Student - provides loan(s)/disbursement(s) information for one particular student by the student's Social Security Number.
 - Award ID (Loan ID) - provides loan/disbursement information for a specific Award ID
 - Date Range – provides loan(s)/disbursement(s) information within a range of dates for a particular award year.
- The total record lengths within the rebuild file are applicable to all award years. The total record length was increased in April 2014.

Coronavirus Indicator

The Direct Loan Rebuild will not be updated with the Coronavirus Indicator but to minimize the impact to schools and vendors that have internal system edits on loan period dates, we will exclude any Direct Subsidized Loans that have a disbursement marked with the Coronavirus Indicator.

MPNs will not appear on the MPN Status Report if they have expired due to Disbursement inactivity more than 30 days prior to the date of the report generation. MPNs that have expired and were previously included on the report will no longer appear on the report. In addition, MPNs that will no longer expire within the next 60 days due to recent activity will be removed from future report.

This report can be used to:

- Identify when a new MPN may be needed for an award at your school
 - If an MPN has expired, you cannot use that MPN to link to a new, unlinked award at your school that will be disbursed after the expiration date. You must obtain a new, signed promissory note to book additional loans.
 - If an MPN has expired that is already linked to an award at your school, no further action is necessary for that award. Any disbursements made to the linked award will book using the existing promissory note.
- Identify when a new MPN is needed for an award at your school.
 - If an MPN has been made inactive due to a discharge, it cannot be used for additional awards. If you expect to award and disburse additional funds to the affected borrower or student, verify that the individual is still eligible and obtain a new, signed promissory note.
- Identify when a new MPN may be needed for an award at your school

- If an MPN is about to expire, and you know that your award will not be accepted, linked, and disbursed prior to the expiration date of the note, you should obtain a new MPN.
- If an MPN is about to expire that is already linked to an award at your school, no further action is necessary for that award. Any disbursements made to the linked award will book using the existing promissory note.

Business Rules

1. This report will be generated in a weekly basis and sent from the COD System with the new non-award year specific message class *MPNSTAOP*.

Iraq and Afghanistan Service Grant ESOA Report

Beginning at the end of June 2018, COD will produce an Iraq and Afghanistan Service Grant Electronic Statement of Account (ESOA) Report to notify schools of Iraq and Afghanistan Service Grant funding available to be drawn from G5 for Award Years 2017-2018 and forward. This report will provide schools with a status of their Current Funding Level (CFL) for an award year, and their year-to-date Total Accepted and Posted Disbursements.

Business Rules

1. A school will receive the Iraq and Afghanistan Service Grant ESOA automatically via the COD system due to a change in the funding school's Iraq and Afghanistan Service Grant CFL.
2. The Iraq and Afghanistan Service Grant ESOA can also be requested by the school via the New Report Request page on COD Web.
3. The web-requested Iraq and Afghanistan Service Grant ESOA will be a re-transmission of the most recent system generated Iraq and Afghanistan Service Grant ESOA.
4. These Iraq and Afghanistan Service Grant ESOA reports will use the standard SAIG batch transmission header and trailer and the standard GRANT batch header and trailer. The header record and the trailer record will contain an IGASYYP message class where YY is the award year of a specific report (i.e. IGAS18OP for Award Year 2018-2019). All Iraq and Afghanistan Service Grant ESOA reports will have a batch type of 'IA' for both requested and system generated.
5. The Iraq and Afghanistan Service Grant ESOA will be delivered to the school's SAIG mailbox in a Common-Delimited (CSV) format.
6. The Iraq and Afghanistan Service Grant ESOA Summary Record and Detail Record will be sorted by Transaction Date in descending order.

COD School Monitoring Report

The COD School Monitoring report assists schools with the financial aid disbursement process by highlighting three conditions;

1. Unsubstantiated Cash
 - a. Means your school has received cash for one or more Title IV Programs, however, to date a sufficient number of actual disbursement records to substantiate these amounts have not been received.
2. POP Situations – New Summary Format
 - a. The report displays the number of students per award year that have hit Pell Grant Potential Overaward Process (POP) situations (based on 34 CFR 690.65). Information regarding the COD System business rules surrounding POP may be found in the COD Technical Reference, Volume II, Section 1. Both the Multiple Reporting Record (MRR) and the Pell POP Report are also sent to the schools and document POP situations. The COD System allows a potential overaward situation to exist for 30 days, giving schools time to address the POP situation, and sends a warning to all schools involved before reducing all of the student's Pell Grant disbursements for that award year to zero.
3. 30-Day Disbursement Reporting – Addition of Award Year Totals
 - a. Where one or more funded disbursements are accepted more than 30 days after the *Actual Disbursement Date*.

This report is an important tool to help schools identify potential issues in timely reporting of data to the Department so they can better meet regulatory and reporting requirements. Reviewing this report should be part of your weekly internal procedures. This report will include data regarding Iraq and Afghanistan Service Grant students. However, this program will not be included under the Unsubstantiated Cash section of the report.

Business Rules

1. The COD School Monitoring report is automatically sent to a school's SAIG mailbox and COD Reporting Web site, on a weekly basis, when any of the three conditions is present: Unsubstantiated Cash, POP Situations and 30-Day Disbursement Reporting.
2. The COD School Monitoring report is available via SAIG in the following format:
 - i. Preformatted Text file (message class SCHMONOP)
3. The COD School Monitoring report is available on the COD Reporting Web site, in the following format:
 - i. PDF
 - ii. The COD School Monitoring report available on the COD Reporting Web site is the one most recently generated by COD.
4. Although the COD School Monitoring report is generated weekly, if there is no data for the report on a given week, the report will not be sent to schools' SAIG mailboxes or made available via COD Reporting Web site.
5. The SAIG version of the COD School Monitoring report follows the same header and trailer layout as the Direct Loan Batch layout. See below for more details.
6. Iraq and Afghanistan Service Grant Data:
 - i. Iraq and Afghanistan Service Grant data will not be included under the Unsubstantiated Cash section of the report.
 - ii. Iraq and Afghanistan Service Grant data will be included under the POP Situations - New Summary Format section but the POP student count for Iraq and Afghanistan Service Grant and Pell will be combined.

- iii. Iraq and Afghanistan Service Grant data will be reported under the Disbursement Reporting Section as a separate program and not combined with Pell.

Note: Schools must report disbursements within 15 days according to the regulations.

Pell Grant Potential Overaward Project (POP) Situations

Report shows the number of students per award year that have hit Pell Grant Potential Overaward Project (POP) situations. Information regarding the COD System business rules surrounding POP may be found in the COD Technical Reference, Volume II, Section 1.

Issue: To date, the COD System has not received or accepted disbursement adjustments to correct some students' potential overaward.

Action: The number of students in a POP situation is listed below. Details on these students can be retrieved from the Multiple Reporting Record (MRR) file sent to your school's Student Aid Internet Gateway (SAIG) mailbox advising your school of a POP situation. The Pell POP report, generated weekly, can also be retrieved from your school's SAIG mailbox, and via the COD Reporting Portal on the Web site. Use this information to determine the student accounts that should be reviewed and adjusted, as appropriate.

Regulatory Reference: 34 CFR 690.65 provides the basis for determining a student's remaining eligibility when another school has disbursed Pell Grant funds to the student.

Action: Review the disbursement reporting requirements and make adjustments to your reporting processes for future disbursements.
